

This week, Park Hills welcomed a new member to our management team. Jennifer Haramoto is a 13 year veteran of the food service industry and will be taking on the challenge of managing our restaurant business here. Sharon will be increasing her focus on the event side of our business which continues grow, with 80-100 scheduled functions on the books at any given time. They will also overlap and support each other in reaching all of the service objectives we have here at the club. Welcome "Jen" when you see her and wish both of them well.

On October 14th, about 80 golf Members attended the Fall Mixer and "Meeting". We enjoyed some good food, a few adult beverages, and Michael, Steve, and I spoke briefly on current and future issues here at Park Hills. A few of the highlights for those of you unable to attend:

Both golf and food/beverage revenues are on track to meet or exceed expectations for this year. Our Membership level has plateaued but we hope to make significant gains for the coming season, with a target of growing to 300 Golf Members by May 1. We asked the current Members to help us get to that number by taking every opportunity to introduce our facility to potential members, and forward any good leads to me for follow up.

Restaurant and event business are crucial to the winter season. We hope you'll consider making the club your first choice for dining out or hosting an event, large or small. The club has made a considerable investment to improve the dining venues here for your enjoyment so help spread the word that Park Hills is not just for Members anymore! Our Sunday Brunch Buffet has been well received from those who have come out, and is yet another way to support the food and beverage function here at the club. Consider giving it a try if you haven't already.

From a capital investment perspective, ownership has met their contractual five-year investment commitment. Documentation to that effect will be sent to the Members of record in the coming months.

Michael reported that the condominium and golf course improvement project is still undergoing a feasibility analysis, but he gave it a 70% chance of coming to fruition in the next few years.

Steve recognized the Men's and Women's Greater Altoona teams for their performances in this year's event.

Ray Kallai voiced overwhelming approval for the direction the club has taken since the change of ownership, and the Member group in attendance strongly concurred.

In preparation for the 2016, we have finalized the Public Fee and Golf Outing pricing strategy as well as Membership Dues. We intend to maintain our "no new weekend outings" stance and also to continue to prioritize Member play on weekend mornings. Premium pricing will stay in effect for public play on weekend mornings for any times still available two days out.

Effective for the January 2016 Member billings, golf dues will increase across all categories by 5% over the 2015 rates. To offset part of that increase, we will no longer bill Members individually for the cost of the WPGA dues, GHIN handicap and tournament scoring services. This effectively reduces the amount of the increase to about 3%. We hope you will still find your Membership to be an excellent value and we thank you for your support in helping us continue the progress here at Park Hills.

Happy Birthday!

Robert Miller 11/01	Dean Allison 11/08	Daniel Lawruk 11/19
Dane Sager 11/02	Timothy Leach 11/08	Jason Bihary 11/21
Patrick Miller 11/02	David Cowger 11/10	Richard Fiore 11/21
Thomas Dickey 11/02	David Baumgartner 11/10	John Koeck 11/22
